Make a (Very) Personal Gift

A fun DIY intimate kit for couples and bold friends
18+ only

What is Bananakit?

Bananakit is a playful, at-home DIY molding kit created for adults who want to turn intimacy into something fun, creative, and unforgettable. Instead of giving yet another boring gift, you create a unique, one-of-a-kind present that is as personal as it gets.
With Bananakit, you get:
• A shared experience to laugh about together
• A bold, highly personal result
• A story you'll be telling for years

Why Choose Bananakit?

More than a gift. It's an experience. Anyone can give flowers or chocolates. Bananakit turns a simple present into a moment: planning it, doing it, laughing about it, and maybe blushing just a little.

Our goal is to keep things playful and respectful. Bananakit is perfect for adults who:

• Enjoy joking about intimacy
• Prefer experiences over "standard" gifts
• Want something original, cheeky and memorable

Small kit. Big story.

How Bananakit Works
Simple, Fun, At Home

1. Get ready: Open your Bananakit, read the quick guide and prepare the components. You just need a bit of time, privacy and a sense of humor.

2. Mix & Mold: Follow the step-by-step instructions to mix the molding material and create your personalized shape. The texture is designed to be comfortable and easy to work with.

3. Let It Set & Reveal: After the recommended setting time, you reveal a unique, very personal piece that becomes the highlight of your story, your party or your anniversary surprise.

Clear, illustrated instructions guide you through every step, so you can focus on having fun instead of worrying about the process.

WHY BANANAKIT® BEATS TYPICAL PENIS MOLDING KITS

1. **Extra-Wide Cylinder. Fits Any Size.**
The extra-wide 3.15 in cylinder makes insertion easier and more comfortable, reducing the risk of touching the rim — even with larger or curved profiles.

2. **Packed with More — Ready for Any Size**
No need to buy extra materials, even if you're extra large! Included materials handle virtually any size up to 11.81 in.

3. **No Cutting. No Measuring. No Hassle.**
Ready to use straight from the box — no preparation needed. Just open the box and you're ready to go!

4. **Dual opening. Easier loading.**
The dual-opening design separates what should be separate — insertion at the bottom, pouring at the top. Simpler, cleaner, better.

5. **Speed: 20 minutes to finish.**
From pour to reveal in just 20 minutes. No overnight waiting, no guessing — just a perfect replica, fast.

6. **No leaks, no mess, no stress.**
The anti-spill system seals the cylinder securely, keeping the process clean from start to finish.

7. **10-mode vibrator**
A discreet, powerful bullet vibrator with 10 modes built in — from gentle pulses to intense patterns, every sensation is yours to explore.

8. **Made in Italy**
Not just Made in Italy — made by dental professionals. The same factory, the same dental-grade standards that dentists rely on, applied to every Bananakit.
